

CREATE SERVICE INSTANCE

STEP -1 :

The screenshot displays the IBM Cloud Catalog web application. The browser's address bar shows the URL <https://cloud.ibm.com/catalog>. The page header includes the IBM Cloud logo, a search bar, and navigation links for Catalog, Manage, and the user account (BHAVANISHA B's Acco...). The main content area features a large illustration of a storefront with a person at a counter, symbolizing a service catalog. On the left, a search bar contains the text 'cloudant'. Below the search bar, a dropdown menu lists search results: Cloudant, IBM Cloud Activity Tracker, SimpleCloud, CloudHedge App Modernization Platform, Cloud Native Storage and Data Service, and Container Registry. To the right of the search results, there are sorting options (Alphabetically) and view toggles (grid and list). The main content area displays several service cards. The first card is for 'AnonTech ViziVault Platform' by Anon Technology, Inc., which manages personal information as-a-service. The second card is for 'API Connect' by IBM, an enterprise-grade platform for creating, securing, managing, sharing, monetizing, and analyzing custom APIs. The bottom of the screen shows a Windows taskbar with various application icons and a system tray displaying the date and time (11:47 AM, 13/11/2022).
